### **DETAILED ACTION**

The response filed 5/12/04 has been made of record. Prosecution is hereby re-opened in view of applicant's amendment.

#### ***Specification***

The amendment filed 5/12/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: Applicant has added the terminology "antennapedia peptides" and then gives an example as being the PENETRATIN into the specification. The terminology "antennapedia peptides appears to be broader than what was encompassed by the original trademark. Are there other "antennapedia peptides" found in the art; other than those found under the trademark?

Applicant is required to cancel the new matter in the reply to this Office Action.

#### ***Claim Rejections - 35 USC § 112***

Claims 22 and 25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. THIS IS A NEW MATTER REJECTION

The terminology "antennapedia peptides appears to be broader than what was encompassed by the original trademark. Are there other "antennapedia peptides" found in the art; other than those found under the trademark?

Claims 22 and 25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what applicant means by "antennapedia peptides".
